TO WHOM IT MAY CONCERN,

It is with great pleasure that I write this reference letter for Macgregor Forsyth.

Macgregor Forsyth has been in partnership with Levi Strauss & Co. since 1994 in opening of retail stores nationally and into Sub-Saharan Africa.

They have developed a deep understanding for our brand and have allowed it to become part of their identity.

We appreciate all the time and effort dedicated over the years in allowing our brand's growth and with that providing a level of service that signifies high quality products and efficiency.

They recently designed and provided a full turnkey service for our new Head Office relocation in Cape Town – a space that portrays us on an international design level and captured our brand identity.

We have had such positive feedback and response from staff and clients with regards to the new look and feel.

We would like to make special mention and give our thanks and appreciation for your patience and professionalism on all our projects over the years.

We highly recommend their team's highly qualified and dedicated service.
